Model:	Wooden Motor Yacht	Hull Material:	Wood
Length:	11.58 m	Draft:	1.21 m
Price:	GBP 29,995	Number of Engines:	1
Year:	1957	Fuel Type:	Diesel
Condition:	Used		

El Manana

El Manana was built in 1957 as a gentleman's yacht. Following an extended period of rebuilding and renovation she is now offered for sale.

Bought by the present owner in 2011 she has been extensively refitted. She has new bespoke cabin furniture in sapele, a new galley, and a new forward electric toilet.

The hull is larch planks on oak frames. Previously painted white the hull has recently been varnished. The decks have been repaired and replaced and are now laid in iroko.

The wheelhouse has been repaired and refurbished.

All work has

A 60hp Beta Marine engine has been installed with less than 100 use. El Manana has a new exhaust system, new seacocks, new fuel tank and fuel system, new electrics throughout.

The original aluminium masts have been removed and the decks made good. A set of newly made Douglas Fir masts are provided should the new owner wish to include them.

Now that the deck has been replaced the windlass requires refitting, and guard rails are required on the after deck. Whether to fit masts is a matter of choice for a new owner. Any work required by a new owner can be carried out by the boat yard.

The boat offers a fully enclosed wheelhouse with upholstered bench seat.

Below is an elegant saloon which has been fitted out to a very high standard by Clydeside Traditional Boat Builders in varnished sapele. There are two settees, port and starboard, either side of an attractive bespoke table. There are single berths above each of these. On the starboard side the upper berth extends to create a comfortable double.

The accommodation is heated by a Hot Pot multifuel stove. The headroom throughout is 6 ft 3 ins.

Forward of the saloon is a large heads compartment with electric toilet and vanity unit.

The owner's cabin is located aft behind the wheelhouse. The large double berth requires a mattress. This cabin is spacious with storage and room to stand.

The galley has a two burner gas stove with oven and grill and a stainless steel sink with pumped cold water. There is a portable cold box that plugs into a 12 volt supply.

Measurements

Cruising Speed:	6 kn	Windlass:	Manual
Cruising Speed RPM:	1900		Windlass
Max Speed:	8 kn	Electrical Circuit:	12V
